

VS Safety is a world-leading provider of wireless security and home automation solutions. Our company is well recognized for the track record of technological innovations and for the high quality of our products.

## Accessories

### Introduction

The **DC-15** is a lithium battery operated wireless door contact. A unique design with a battery insulator sticker and the LED functioning as the activation button ensures fast and easy installation.

### Specifications

Power Supply: "1/2 AA" 3.6V 1000 mAh Lithium Battery  
Current Consumption: idle: 12uA; RF Transmission: 15mA  
Low battery detection: 3.2V±10%.  
Battery life: 48-60 months @10 times of opening & closing.  
Auxiliary Input terminal: 1 N.C. general purpose Input.  
Operation Range: 300m in open space.  
Operating temperature: -20C ~ +45C  
Dimension: 107mm (L) x 32mm (W) x 21.7mm (H)  
Weight: 57g
