VS Safety

Accessories

Introduction

The KP9 & 15 is a battery operated wireless remote keypad for the CTC alarmsystems. The Remote Keypad is mainly used for arming and disarming the system.

It can also part arm the full feature system of its compatible main panels. Safeguarded by a "Tamper Proof Switch" as well as an Invalid Password Deterrent.

Available in two colours: Black and White
KP-9: Two-way radio KP-15: One-way radio

Specifications
