

# Professional Cable

The majority of the cost of an intruder alarm system is in the installation rather than the equipment so it is vital that the highest quality cable is used to ensure system integrity. All CQR's security cable is manufactured in the UK and is renowned for its superior quality. Short lead times can be met as well as producing small runs of unusual variants.

This UK manufactured cable has cores of 7 strands of 0.182mm annealed tinned copper wire and is sheathed in Type 1 PVC. Suitable for any installation where signal integrity is paramount.

## Specifications

Core: 8 x 7 x 0.182

Resistance: 94.6 Ohms/Km

Conductor Area: 0.182mm<sup>2</sup>

Current Rating: 1 Amp

Max Voltage: 50V

Core Insulation: PVC T1.1

Sheathing: PVC Type 6

Operating Temp: -50 to +70°C

## Available cable sizes

Available in White or Brown

- 20 Years experience of alarm cable manufacturing in the United Kingdom
- Wide range of cable types; standard, screened, low smoke & fume, twisted pair and power & data
  - User friendly, easy to strip & pliable in use
